

Cardiology Follow-up Report

Patient: Robert Smith

Age: 58 | Male | Date: 06 Jan 2026

Critical Findings

Blood Pressure: 158/96 mmHg (Stage 2 Hypertension)

Total Cholesterol: 248 mg/dL (High)

LDL Cholesterol: 168 mg/dL (Very High)

Triglycerides: 210 mg/dL (High)

Fasting Glucose: 112 mg/dL (Prediabetes)

Patient has uncontrolled hypertension and dyslipidemia despite current medication. Strongly recommend lifestyle changes: low-salt diet, regular aerobic exercise, weight loss if applicable. Consider adjusting antihypertensive therapy. Statin therapy indicated. Urgent follow-up in 2 weeks.

Dr. Emily Roberts, Cardiologist
